

2011 AGC Regional Competition

The KBE Building Committee hereby invites your firm to submit a proposal for Construction Management services.

The project involves construction of a new multi use facility located within Region 1 of the United States. The program will include educational and training facilities, food preparation, spaces for demonstration and assembly and the creation of an environment conducive to the inhabitants, administration, and staff.

Systems include structural steel framing, extensive Mechanical and Electrical systems, specialized finishes and the possibility of extensive upgrades. There are particular site logistics issues to be solved such as UXO (ordnance), government finance regulations, etc.

KBE will be assessing the following (at a minimum) in your formal submittal:

Project Staffing	Project Approach	Safety
CPM Scheduling	Estimating	Logistics
Client Satisfaction	Clash detection/problem solving	

KBE will also require an oral presentation. It is important to tell us, the Owners Representatives, what **WE** need to hear about your team's approach. Our committee is currently finalizing the RFP materials and contract documents for distribution at the competition.

As always, remember to have fun as you invest in your future!
