

26th Annual ASC Region 1 STUDENT COMPETITION & JOB FAIR

November 13-14, 2015. The Westin Governor Morris, Morristown, NJ

Region 1 of the Associated Schools of Construction is sponsoring its 26th Annual Student Competition and Job Fair. Teams from 17 schools in the Northeast and Mid-Atlantic compete in the disciplines of Commercial Building, Heavy-Civil Construction and Design-Build.

What are the benefits for employers?

Access in one location to over 180 self-motivated construction management students that have passion for construction. As a participant of the job Fair, employers will see teams presenting their work and get the chance to speak with students on-on-one throughout the day.

What do students do at the competition?

In real-world simulations of the estimating and proposal process, teams interpret bid documents, plan means and methods, perform take-offs and pricing, analyze subcontractor quotes, create schedules, and submit proposals. Teams are evaluated by industry judges on the quality of their proposals and oral presentations.

What are the benefits to students?

Students have the opportunity to apply classroom to real-life situation. They gain a first-hand look at the construction industry and the level of effort it takes to be successful. Teamwork, fun, and pride in their schools is an added bonus!
