

2009 AGC Regional Competition

The KBE Building Corporation is inviting your firm to submit a lump sum proposal for Construction Management services for new construction.

The project is located within a suburban area of Region 1 of the United States and the scope of work includes site remediation and new construction. The project will entail proper logistics as to not disrupt the surrounding community. The project will also contain, but not limited to, communications area, training areas, secure storage areas, lounge, offices, filing areas, parking facilities, slab on grade, and structural steel framing.

KBE will be assessing the following (at a minimum) in your formal submittal:

Project Staffing	Project Approach	Safety
CPM Scheduling	Estimate	Value Engineering
Quality Control	Client Satisfaction	

KBE will also critique your group's oral presentation. It is important to tell us, the owners, your firm's approach to project construction.

KBE Building Corporation is currently finalizing the material and contract documents for distribution at the competition.

And of course, remember to have fun as you invest in your future!
