

35th Annual Associated Schools of Construction Region 1 Competition and Conference

Welcome Packet

Schedule

Conference & Competition Information

14 November 2024

Welcome to the 35th Annual Associated Schools of Construction Region 1 Competition and Conference

Dear Participants,

On behalf of the entire leadership of Region 1 of the Associated Schools of Construction, I welcome you to this year's competition and conference. We are proud to welcome member schools, industry supporters, judging category firms, faculty and students, as well as guests and other participants to this year's event.

This annual event continues in large part because of the support of the entire construction industry and its continual efforts to grow and learn. Part of that effort is to prepare the next generation of construction industry leaders for the rapid and exciting challenges that we will face in the immediate future. This competition tests the best-of-the-best across our region to compete for prizes and the chance to prove what they have learned on their home campus in the crucible presented by our industry judge panels.

As part of the conference we also feature an employer expo/showcase that is not just about getting a job, but launching a career and creating the needed connections that propel our industry forward in many directions. Please ensure you visit those firms that are looking to be a part of our futures together. Additionally, we will host several training/presentation sessions where students, faculty, industry partners, and other participants alike, can learn more about where the industry is going and what we can do to stay ahead of the ever-steep learning curve. Take advantage of these PDH carrying sessions on Friday and Saturday as we have a great set of options for all of you to dive into.

Lastly, in the spirit of our industry and of the ethical foundation we all ascribe to, we ask that all competitors adhere to the competition rules and guidelines¹, work hard, and have a ton of fun! All the best to all of you and may the best team, in each category, rise to the top.

Yours,

Erik C. Backus, PhD., P.E., LEED AP BD+C, ENV SP, FMP
Associated Schools of Construction
Region 1, Director

¹ All information pertaining to the completion and the rules/guidelines is to be found here:

* Precise times will be issued by the judging firms at the project kick-off meeting (or as part of addendums). Last turn-in can be no later than (NL/T) 11:00 PM. Judging firms will give the time for the last turn-in to the Competition Coordinator NL/T Thursday at 9:00 PM to communicate that to faculty.

34th Annual Associated Schools of Construction Region 1 Competition and Conference

Training and Presentations

Friday, November 10th

1:00-2:00pm

Session Title: Albany Airport Construction Project Site Tour

Turner Construction Company has graciously invited all faculty of ASC Region 1 for a site tour at the Albany International Airport.

The tour starts promptly at 1 pm at the airport. Faculty will depart at 12:30 pm to travel to the site (carpooling encouraged using university/college vans). “Turner has received approval to park near their job trailer at the Albany Airport (map attached). Everyone would enter the airport as though they are going to the terminal and follow signs for Rental Car facility.” They should take a left just after the Rental entrance just past the end of the parking garage. Everyone must have full PPE for the tour (hardhat, safety glasses, high visibility vest, steel/safety toed boots). Leading the tour will be Ms. Gabrielle Rosario of Turner.

All of the following sessions are at the Hilton, Downtown Albany in the Hudson Ballroom

Saturday, November 12th

12:00-1:00 pm

Session Title: Day in the Life of a Construction Manager

Adrian Price & Tyler Hampton of Flatiron

Session Description:

Members of the Flatiron Team will share their typical day and some actionable tips for new hires and entry level positions.

Learning Objectives:

- Experiential learning
- Soft skills development
- Communication on the jobsite
- Safety-forward thinking

1:00-2:00 pm

Session Title: Day in the Life of a Project Engineer
Tarah Driver & Dan Raleigh of Skanska

Session Description:

Tarah Driver & Dan Raleigh will share their typical day and some actionable tips for new hires and entry level positions.

Learning Objectives:

- Experiential learning
- Soft skills development
- Communication on the jobsite
- Safety-forward thinking

2:00-3:00 pm

Session Title: Experience implementing & managing BIM & VDC
Jonathan Donahue & Ryan Briles of OAR Scanning

Session Description:

Members of the OAR Scanning team will share a presentation that delve deep into the technical details of the two industrial projects that they have recently executed: one being the transformation from 2D into 3D BIM of a fortune 500 recycling company's engineering department over the course of a 3 year, two billion dollar automation-retrofit schedule across roughly 100 facilities & the other our experience implementing & supporting BIM for the prime engineering firm on a half billion dollar progressive design-build shipyard expansion project.

Learning Objectives:

- BIM and Scanning
- Bringing value to owners
- Understanding progressive design-build

3:00-4:00 pm

Session Title: Day in the Life in the Concrete Business
Richard Williams & Maddie Gosser of Baker Concrete

Session Description:

Members of the Baker Team will share their typical day and some actionable tips for new hires and entry level positions.

Learning Objectives:

- Experiential learning
- Soft skills development
- Communication on the jobsite
- Safety-forward thinking
